Full-Stack Developer — AI-Powered Solutions Enthusiast — MERN Specialist

Professional Summary

AI-Driven Full-Stack Developer passionate about building scalable, intelligent systems that blend data science with web technologies. Skilled in Python, TensorFlow, and the MERN stack for developing end-to-end AI applications — from model training to real-time web integration. Proven ability to automate processes, enhance user experience, and deploy cloud-ready AI products. Currently interning at **Infosys Springboard**, developing deep learning models for computer vision tasks.

Technical Skills

Languages	C, Java, Python, HTML, CSS, JavaScript
Frameworks & Libraries	React.js, Node.js, Express.js
Databases	MongoDB, Firebase Firestore, Supabase (PostgreSQL), SQL
Tools & Technologies	Git, RESTful APIs, OpenAI API, Google Maps API, ElevenLabs API, Firebase Auth, GitHub Actions, Tailwind CSS, PL/SQL
Core Competencies	Full-Stack Development, Responsive Design, AI Integration, Version Control, Debugging, Agile Methodology, CI/CD, Cloud Deployment

Education

2023 – 2027 (Expected)	Bachelor of Technology in Computer Science and Engineering, Sasi Institute of Technology and Engineering , Tadepalligudem (CGPA: 8.84)
------------------------	---

Internship Experience

AI Intern – Infosys SpringboardOct 2025 – Dec 2025 (Ongoing)

- Engaged in developing AI-powered applications focused on computer vision and automation.
- Currently working on **Pawdentify**, an intelligent system for dog breed classification and information generation using deep learning.
- Implemented CNN-based architectures and optimized models for accurate image classification.
- Documenting workflows and deployment steps for future scalability and maintenance.

Web Development Intern – SkillDzireMay 2025 – June 2025

- Developed and optimized responsive UI components using HTML, CSS, and JavaScript.
- Improved site interactivity and performance, enhancing user engagement.
- Collaborated using Git for version control and streamlined deployment workflows.

MERN Stack Developer Intern – CodeC TechnologiesFeb 2025 – Mar 2025

- Built modular full-stack applications with MongoDB, Express.js, React, and Node.js.
- Developed RESTful APIs and dynamic dashboards for seamless user interaction.
- Actively participated in Agile sprints and peer code reviews, ensuring on-time deliverables.

Projects

Diabetes Prediction System

[Live Demo](#)

Developed an AI-based health prediction platform that forecasts diabetes likelihood from patient metrics using **Scikit-learn** and **Pandas**. Deployed via Streamlit for real-time predictions and visual analytics.

Pawdentify – Dog Breed Classification & Info Generation

Infosys Springboard Project

Built an AI-powered web app that classifies dog breeds from images and generates breed-specific insights such as temperament, care, and lifestyle tips. Utilized deep learning CNN models and deployed a scalable Flask-based API for real-time image analysis.

Zero Waste Recipe Generator

[Live Demo](#)

AI-powered platform for food donation and recipe generation with real-time tracking via Google Maps. Reduced food wastage and facilitated coordination with 10+ donation centers.

StockEase – AI Inventory Management

[Live Demo](#)

Voice-enabled, multilingual stock management platform with AI forecasting, reducing errors by 30%.

Learn Spark Academy Voice – EdTech Platform

[Live Demo](#)

Voice-first learning platform featuring gamified quizzes and flashcards, improving engagement for 100+ students.

Certifications

- Front-End and Web Development (IBM, Coursera, 2025) [[View Certificate](#)]
- Getting Started with Python (University of Michigan, Coursera, 2025) [[View Certificate](#)]
- Python for Data Structures (University of Michigan, Coursera, 2025) [[View Certificate](#)]
- OOP in Python (CodeChef, 2025) [[View Certificate](#)]
- Advanced Python (CodeChef, 2025) [[View Certificate](#)]
- SQL & Relational Databases 101 (IBM Cognitive Class, 2025) [[View Certificate](#)]
- Program with PL/SQL (CodeChef, 2025) [[View Certificate](#)]

Achievements

- Runner-up in Hackathon **Prayatna 2.0** among **50+ teams**.
- Runner-up in Quiz by **IEEE Student Branch** (Top 3 among **40 teams**).
- Organized and conducted **Hackathon** under ACM Student Chapter with **100+ participants**.
- Led awareness programs at **Satyawada and Alampuram ZP High Schools**, mentoring **60+ students** on career roadmaps and CS fundamentals.

Leadership & Extracurriculars

- Point of Contact – Corporate Committee for **Inspira 2025**, coordinating industry partnerships and managing **300+ attendees**.
- Hosted and coordinated major events during Inspira 2025:
 - Hackathon with **200+ students** building real-world solutions.
 - Codeathon engaging **100+ participants** in competitive coding.
 - Ideathon featuring **50+ innovative ideas**.
- Organized **TechWar**, an inter-department tech event with **120+ attendees**.
- Program Coordinator & Event Leader for technical and cultural events at SITE.
- Active Member, **ACM Student Chapter – SITE**.

Soft Skills

Communication, Team Collaboration, Time Management, Problem Solving, Creative Thinking

Languages

English (Fluent), Telugu (Native), Hindi (Conversational)
